

Joy Carpets & Co.

The First and Still the Best:

Joy Carpets is the leader in the design and manufacture of specialty broadloom, modular carpet, rugs, and mats for creative and eye-catching interiors. We take pride in providing industry-first floor coverings to residential, educational, hospitality, healthcare, and commercial markets.

Joy pioneered fine gauge tufting and introduced the first recreational carpeting, Games People Play®, to the industry in 1973. Since that time, we have continued our commitment to meeting the unique needs of our customers by providing only the highest quality products through cutting edge technology and design.

Our exciting patterns add energy to any room. Choose from hundreds of styles in our design archives, or we can make your unique concept a reality with our custom capabilities, including state of the art, high-definition, injection dyeing.

Made at Home...Found Worldwide:

Joy Carpets has established a solid reputation for unsurpassed design and manufacturing of educational, game, and specialty flooring. Our products are made in the USA and can be found around the globe.

Quality Service and Excellent Value:

By using only the highest quality yarns, injection dye processes, and innovative backing systems, Joy's products deliver outstanding performance in residential to heavy commercial environments. We stand behind our products with comprehensive warranties and outstanding customer service.

Design Your Space with Confidence:

When creative, colorful, and versatile flooring is needed for that unique residential, hospitality, or commercial installation, look with confidence to Joy Carpets to satisfy your needs. We offer the best quality, value, warranty, and service in the industry. Remember, fun never goes out of style, so choose Joy Carpets for the fastest way to a fantastic floor!

HOME & OFFICE CARPET™

Dedicated to Environmental Stewardship

Joy Carpets understands the importance of environmental stewardship and its relationship to a successful business. We are committed to operating our facilities in an environmentally sustainable manner, and in a manner that protects the health and safety of our associates and the public.

Our environmental commitment is driven by a holistic approach to sustainable operations, not simply focusing on recycling alone. Joy Carpets reaches beyond recycling in an effort to reduce our company's environmental footprint. Our vision and progress to achieving the goal of full sustainability focuses on the following:

- Environmentally friendly products
- Review of our products' supply chain
- Extending product life cycle
- Use of recycled packaging
- Reducing waste to landfill
- Reducing energy consumption and water usage
- Use of alternative energy sources
- No carpet to landfill commitment
 - Recycling carpet into new products
 - Donating carpet for charitable re-use

Additionally, Joy Carpets is committed to establishing a strong foundation of environmental values with our families, associates, and communities to ensure the long-term conservation of our earth's natural resources.

Joy Carpets area rugs and carpets with STAINMASTER® have been awarded the CRI Green Label Plus™ Certification, ensuring all products exceed the most stringent Indoor Air Quality Standards and are best suited for living, working, and learning environments.

...for the home

In a business environment, the floor serves as the room's foundation yet is often marginalized as a design element. However, the appropriate carpet design can reinforce the corporate brand and create a warm and hospitable atmosphere that enhances a visitor's experience.

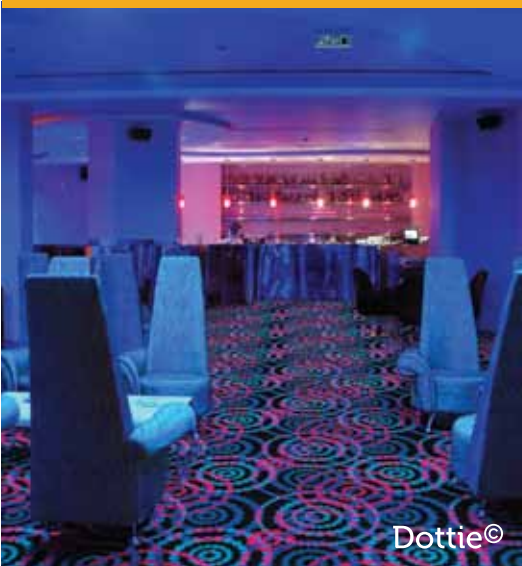

Welcome visitors and deliver a positive first impression with any of our hundreds of themed carpet patterns. Our products are manufactured to withstand the high-traffic and year-round abuse found in the busiest commercial installations.

education

High performance, educational carpet for inspired learning centers.

Can a carpet improve an overall educational environment? We say yes! Carpet color, design, and comfort all contribute to the degree to which information is absorbed and is directly related to the health, image, self-esteem, and attitude of students and teachers.

Our products for learning environments combine award-winning designs with excellent value, top level warranties, and ease of maintenance.

We also surpass health and performance criteria for these institutions such as indoor air quality, noise reduction, and antimicrobial protection.
